EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Changed the title from "Weight Detecting Apparatus" to -- Weight Detecting Apparatus with Vibrational Sensors attached to both the Free End and the Fixed End of the Load Cell --.

The title was amended to make it more descriptive of the device claimed. The original title was too generic to be descriptive.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: it is generally known to equip weigh measuring devices with vibration detectors to provide a correction signal for the weighing device; however, none of the prior art shows nor suggests the specific idea of attaching a vibration detector to the free end of a load cell and another vibration detector to the fixed end of a load cell to produce a more accurate correction signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
